

# Curriculum Vitae

## Doe Joshua

Macedonia, Accra | joshuadoe168@gmail.com | 0242403450 / 0531125952 | [Github](#) | [Linkedin](#) | [Portfolio](#)

### Professional Summary:

I am a passionate and adaptive software developer with **4 years of hands-on experience** in full-stack and mobile application development. I build **user-friendly, visually appealing interfaces** with React and Tailwind CSS, and develop **scalable, robust backends** using Node.js, Express, MongoDB, and Firebase. I am proficient in JavaScript, TypeScript, and React Native, delivering solutions that are both **performant and maintainable**.

### Tech proficiency:

- **Languages:** JavaScript (ES6+), TypeScript
- **Web & Full-Stack:** Next.js (App Router), React
- **Styling:** Tailwind CSS, HTML5, CSS3
- **Mobile Development:** React Native (Expo)
- **Backend & APIs:** Next.js API Routes, Node.js
- **Database:** MongoDB
- **Authentication:** NextAuth / JWT
- **Tools:** Git, GitHub, Postman, VS Code

## Job Experience

Software engineer instructor  
Codetrain

July 2024 – Present

At Codetrain, I teach both frontend and backend development, helping students go from basic syntax to deploying real projects.

- I teach both frontend and backend technologies to aspiring software developers.
- I guide students through real-world projects and support their learning with best practices.
- I collaborate with the teaching team to improve the curriculum and mentor junior fellows.

**Stack:** React, Node.js, Express.js, MongoDB, Firebase, JavaScript, TypeScript

Full Stack Developer  
WiseTV

April 2024 – Present

- Built and maintained a full-stack streaming platform, delivering both **user-facing features and admin tools**.
- Implemented **secure authentication**, media content display, and an **admin dashboard** for managing platform content.
- Designed the application to be **scalable, responsive, and mobile-friendly** across devices.
- Collaborated on code versioning and deployment using GitHub, ensuring clean and maintainable code.

**Tech Stack:** JavaScript, React, Firebase (Authentication, Firestore, Realtime DB), Cloudinary, GitHub

**Frontend Developer**  
**Synerdoc**

**April 2024 – July 2024**

- Built responsive user interfaces using React and Tailwind CSS.
- Worked closely with the design and backend teams to integrate APIs and improve user experience.
- Contributed to performance optimization and component reusability.  
**Stack:** React, Tailwind CSS, JavaScript, Git, Postman

## **Personal Projects (Full Stack)**

### **1. Brain Works Studio Website (*Photography & Videography Studio*)**

*Official marketing website showcasing portfolio and services*

- Built a **fully responsive, SEO-friendly website** for Brain Works Studio Africa.
- Highlights **portfolio, services, and contact info**, optimized for fast performance and smooth user experience.

**Tech Stack:** Next.js, Tailwind CSS, JavaScript

**Live Demo:** [brainworksstudioafrica.com](https://brainworksstudioafrica.com)

### **2. Donation & Payment App ( Josh Pay)**

*Full-stack platform for secure online donations and payments*

- Developed a **donation platform** with **Paystack integration**, real-time tracking, and a smooth checkout flow.
- Designed to **support charitable contributions, fundraising, and online payments** seamlessly.

**Tech Stack:** Next.js, TypeScript, Firebase, Paystack

**Live Demo:** [Josh Pay](#)

## Expense Tracker App

### Full-stack platform to track personal expenses

- Built a **web app** for users to manage daily expenses with add/edit/delete functionality.
- Integrated **Node.js and MongoDB** for backend and data storage.
- Features include **authentication, charts for data visualization**, and a clean dashboard.
- Mobile version also developed (not deployed).

**Tech Stack:** React, Node.js, Express.js, MongoDB, Chart.js

**Live Demo:** [BudgetWise](#)

## QR Scanner App

### *Web-based QR code scanner*

- Developed a **QR code scanning web app** for quick scanning and results display.
- Built with **Next.js, TypeScript, and Firebase** for fast, scalable performance.

**Tech Stack:** Next.js, TypeScript, Firebase

**Live Demo:** [QR Scanner](#)

## Quiz App (React Native)

*Mobile app with real-time score tracking and dynamic quizzes*

- Designed and built a **mobile quiz app** with a clean, user-friendly interface.
- Implemented **dynamic question loading**, timed quizzes, and **answer validation**.
- Integrated **Firebase** for backend services and user data handling.

**Tech Stack:** React Native, Firebase, JavaScript, Expo

## Weather App

*Responsive web app for real-time weather forecasts*

- Created a **location-based weather app** with a clean UI to display temperature, humidity, and conditions.
- Fetched real-time data from a **public weather API**.
- Designed for **responsive use** on desktop and mobile browsers.

**Tech Stack:** React, Tailwind CSS, JavaScript, API Integration

## QUALITIES:

- I have strong **interpersonal skills**, which help me collaborate effectively with clients, team members, and stakeholders.
- I approach challenges with confidence, maintaining a **professional image** while solving complex technical problems.
- I am eager to **learn new technologies** and quickly adapt to changing environments.
- I am **self-motivated and growth-oriented**, constantly seeking to improve my skills and deliver high-quality work.

## CERTIFICATIONS:

- Certificate in Software Development
- Professional Diploma in System Engineering
- Microsoft Certified Solution Expert in Infrastructure 2016
- A+ & N+ Certification Course

## Education

**Codetrain** — *Software Engineering*  
2022 – 2023

**IPMC** — *System Engineering*  
2019 – 2021

**Anfoega Senior High School — *General Science***  
*2015 – 2018*
